Comfortable seating position in front of the ergometer

Comfortable seating position in front of the ergometer

Adjustable reclining chair to be placed in front of the arm ergometer. The back support of the chair is adjustable in a range of 85° - 145°. The horizontal position of the chair can be fully automatically adjusted. Note: if the chair is going to be used in combination with an adjustable wall fixation (#917903 / #925830) without a stand, we recommend to order the floor fixation set (#917815) additionally.

Easy to operate

For Lode products this means:

- easy to connect
- easy to move around
- easy user interface

Original Accessory

Accessory designed and manufactured according to the Lode company quality standards
